Chris

A request for goods and services is all it takes to start the procurement.

For stuff under the micro purchase threshold approval is IMO (me) and SIO (James McDonald), same as before.

Sam/Tom - Can we get this printer added to the regional contract with QHT?

In the interim, due to the current high usage for the Gold King Mine response, can we get your approval for SF to procure (via purchase card) a set of toner cartridges and drums for this printer?
